

Century College

3.36.1.2 Course Prerequisites

Introduction

Century College is committed to creating an environment that lead to the greatest possible likelihood for students' success. Course prerequisites are established in order to offer the best possible opportunity for students to succeed.

A prerequisite is a requirement that a student must complete in order to enroll in a course. Prerequisites include courses, assessment for course placement results and other criteria established by faculty so that a student has adequate preparation to be academically successful in a course. The catalog course description and the semester course schedule indicate course prerequisites.

Policy Statement

Students are responsible for meeting the prerequisite requirements and time deadlines for those requirements for all classes. Placement testing results have a time limit which varies across disciplines. Students who register for a course for which they have not met the prerequisite requirements may be dropped or withdrawn from that class by the College. Students who are withdrawn for not meeting a prerequisite are not guaranteed a refund for the course(s) in question.
